## **Aims**

This remote learning policy aims to:

- Ensure consistency in the approach to remote learning for pupils
- Set out how high-quality remote education is provided when it is not possible, or is contrary to government guidance, for some or all pupils to attend school.
- Set out expectations for all members of the school community with regards to remote learning

## **Use of remote learning**

All pupils should attend school, in line with our attendance policy. Remote education is not viewed as an equal alternative to attendance in school and should only be considered as a last resort.

Individual pupils receiving remote education will be marked absent in line with the Pupil Registration Regulations. Where a forced wider school closure occurs, the appropriate Y code will be given.

We will consider providing remote education to pupils in circumstances when in-person attendance is either not possible or contrary to government guidance.

This might include:

- Occasions when we decide that opening our school is either:
  - Not possible to do safely
  - Contradictory to guidance from local or central government
- Occasions when individual pupils, for a limited duration, are unable to physically attend school but are able to continue learning, for example because:
  - They have an infectious illness, and are fit and well and able to learn, but can not attend as their infection would pose a risk to others
  - They are preparing for or recovering from some types of operation
  - They are recovering from injury and attendance in school may inhibit such recovery

The school will consider providing pupils with remote education on a case-by-case basis.

In the limited circumstances when remote learning is used, we will:

- Gain mutual agreement of remote education by the school, parents/carers, pupils, and if appropriate, a relevant medical professional. If the pupil has an education, health and care (EHC) plan or social worker, the local authority (LA) will also be involved in the decision
- Put formal arrangements in place to regularly review it and identify how to reintegrate the pupil back into school
- Identify what other support and flexibilities can be put in place to help reintegrate the pupil back into school at the earliest opportunity
- Set a time limit with an aim that the pupil returns to in-person education with appropriate support
